The Event:

Ghana Trade Show is the prime international multi-sector trade event in the region attracting visitors from 10 African countries. Exhibitors from 15 countries have already confirmed participation at the exhibition.

The exhibition is organized by Grow Exhibitions, the largest trade exhibitions organizer in Africa that hosts 14 trade events in 11 African countries annually.

Why Ghana?

Ghana's wealth of resources, democratic political system and dynamic economy, makes it undoubtedly one of Africa's leading lights. Gaining the world's confidence with a peaceful political transition and a grounded and firm commitment to democracy has helped in expediting Ghana's growth in foreign direct investment (FDI) in recent years.

Ghana has recently embarked on an ambitious but achievable reform programme to improve the investment climate for both local and international investors. These efforts have paid off tremendously with Ghana being ranked the best place for doing business in West Africa, ahead of Nigeria and Cote d'Ivoire, according to the 2018 Ease of Doing Business Report.

It is also known to be the Gateway to West Africa as it re-exports to many land locked countries in the region like Burkina Faso, Mali, Niger etc.

General & Market Information:

With a population of 26.7 million, Ghana is one of the world's largest gold and diamond producers, and is also known to be one of the largest producers of cocoa in the world as of 2018. Ghana's growing economic prosperity and democratic political system has made it a regional power in West Africa. It is also known to be the Gateway to West Africa as it re-exports to many land locked countries in the region like Burkina Faso, Mali, Nigeria etc.

GATEWAY TO THE 250 MILLION WEST AFRICAN MARKETS: Ghana is an average natural resource enriched country possessing industrial minerals, hydrocarbons and precious metals. It is an emerging designated digital economy with mixed economy hybridisation and an emerging market. Ghana's real gross domestic product (GDP) growth is projected to rebound to 5.2% in 2017 from 3.4% in 2016 reflecting the positive impact. The country's medium-term growth prospect is strong with 8.2% in 2017 and moderating to 7.5% in 2018 under the assumption that fiscal adjustment remains on track with the support of the International Monetary Fund (IMF) and other development partners.
